To be included in our VirginiaScan sites and buildings search system, a valid street address or nearest street intersection **must** be provided. If a valid street address is not available, an aerial photograph or tax map showing the location of the building **must** be provided. Color photographs of the exterior and interior of the building should also be included, as well as any available floor plans, site plans, etc. Digital images are welcome and may be e-mailed to mmende@yesvirginia.org. This form should be returned to:

Virtual Building Standards

- Preliminary Design – Detailed drawings of the layout of each floor of the structure showing openings of the building, interior partitions, columns, fixtures, etc. In addition to the floor plan, elevations of the building or renderings depicting the exterior of the building should be available.
- Building Specifications – A listing and description of building systems, materials and finishes sufficient to provide the basis for firm construction costs must be provided.
- Cost Estimates – Firm cost estimates that have specified time horizons (six months minimum) must be provided.
- Construction Schedule – A schedule of the construction of the building, associated site work and any utility extensions must be provided.
- Development Team – A development team with the appropriate architectural, engineering and construction capability must be assembled to execute the project.
- Building Renderings – A three dimensional graphic representation of the exterior of the building showing how the building would be sited on the lot will be required. A “virtual building” tour of the building is desirable but not required.
- Permits or Approvals – If the building requires additional permits from the locality prior to the commencement of construction, a letter from the chief administrator of the locality outlining what permits are required and the timeframes necessary to obtain those permits is required. If additional permits have been obtained, copies of the permits must be available with any expiration dates noted.

ADDITIONAL INFORMATION AND SUGGESTIONS FOR FEATURING YOUR PROPERTY

We highly recommend high resolution, focused digital images for any property you submit. Use our suggestions below to best represent your property. If you do not have ready images, we are happy to schedule a tour with you to take photographs.

Industrial or Office Buildings

For industrial or office buildings, include a floor plan of all available spaces, as well as interior and exterior shots.

For exterior shots of buildings, we highly recommend pruned landscaping of bushes and trees, particularly at the property's main gate, if applicable, and the building's entranceway.

For interior shots of buildings, we highly recommend tidied spaces that are clear of extraneous papers, supplies, materials, and refuse. Any existing furniture and equipment should be arranged neatly, boxes stacked orderly or put away. Use enough lighting for bright indoor images.

Industrial Sites

For industrial sites, include an aerial or a tax map with boundaries clearly marked, and include several images of the property.
